EDUCATION

Our Lady of Fatima College – B.S.I.T.

2004 – 2008

Academia de San Nicolas High School

1997 – 2001

E.R.G.MC.

Elementary

1991 – 1996

LANGUAGE AND FRAMEWORKS

- React / Vue / Angular
- Tailwind CSS / Bootstrap /
- React-native / ionic-mobile
- JQuery / Laravel / php /
- C# .netFramework
- java / python
- TanTack Query
- tailwind CSS / shadCn
- FramerMotion / Tw-Element
- ReactQUery / tanStack Query
- / VITE Tooling
- Swiper /SweetAlert2
- Vuex / Zustand Management
- Github / Prime Ui
- phpMyAdmin / myWorkBench

PROFILE

Skilled Front-End Developer with 6 years of experience in building responsive and user-friendly web applications. Proficient in modern web technologies including HTML5, CSS3, JavaScript (ES6+), and various front-end frameworks/libraries such as Vue.js, React.js, and Angular. Strong understanding of UI/UX principles, cross-browser compatibility, and responsive design. Passionate about creating intuitive and visually appealing interfaces to enhance user experience.

WORK EXPERIENCE

Fly Asian International Inc., – Casino January 2023 – upto Present

React / Vue Developer

- Developed and maintained responsive web applications using HTML5, CSS3, and JavaScript.
- Utilized Vue.js to build dynamic and interactive user interfaces, implementing features such as data binding, routing, and state management.
- Collaborated with back-end developers and designers to implement UI/UX designs and ensure seamless integration of front-end and back-end components.
- Conducted code reviews and implemented best practices to ensure code quality, performance, and scalability.
- Optimized web applications for performance and cross-browser compatibility, resulting in improved loading times and user experience.
- Actively participated in Agile/Scrum meetings, sprint planning, and retrospectives to deliver high-quality software within project deadlines.
- Custom Hooks, Reusable Components, Props, useContext
- useMEMo, useCallback,

Human Incubator Inc.,

Jul 2022 – December 2023

Software Engineer

- **Problem-Solving:** Ability to analyze complex problems and design effective solutions.
- **Adaptability:** Flexibility to switch between different languages and projects as needed.
- **Attention to Detail:** Ensuring high-quality code through meticulous testing and code review processes.
- **Collaboration:** Strong teamwork and communication skills to effectively work with diverse teams.
- **Agile Methodologies:** Often working within agile frameworks (e.g., Scrum or Kanban), contributing to sprint planning, backlog grooming, and retrospective meetings.
- **Cross-Disciplinary Teams:** Interacting with developers specializing in frontend technologies, database administrators, DevOps engineers, and other stakeholders to deliver cohesive and fully functional software solutions.
- **Mentorship and Learning:** Sharing knowledge with less experienced developers, providing mentorship, and continuously learning about new technologies and best practices in your field.

KodeGo BootCamp

October 2021 – June 2022

Front End Developer – VUE js

- **Reactive Data Handling:** Use Vue's reactive data properties to manage state and ensure dynamic updates.
- Implement and manage application state using Vuex or the Composition API to maintain data consistency across components.
- Configure and implement client-side routing using Vue Router to enable seamless navigation within the application.
- **Data Fetching:** Integrate with RESTful APIs or GraphQL to fetch and manipulate data.
- **Error Handling:** Implement robust error handling and user feedback mechanisms for API interactions.
- **Dynamic Forms:** Create dynamic and interactive forms to handle user input.
- Optimize components and application performance through lazy loading, code splitting, and efficient rendering techniques.
- Write unit tests using tools like Jest and Vue Test Utils to ensure code quality.
- Debug and resolve issues to maintain a smooth user experience.
- Work closely with designers, backend developers, and other team members to deliver cohesive and high-quality applications.
- Participate in code reviews, providing and receiving constructive feedback to uphold coding standards and best practices.
- Document components, APIs, and overall application architecture to facilitate future maintenance and onboarding of new developers.
- Refactor and update existing code to improve maintainability and incorporate new features or updates.

Free Lancer

October 2021 – June 2022

Web Templates / Web Pages / Web Development

- Communicate with clients to understand their needs, preferences, and objectives for their websites.
- Provide expert advice on best practices, design trends, and technical feasibility.
- **Design:** Create visually appealing and user-friendly designs using HTML, CSS, and JavaScript.
- **Responsive Layouts:** Ensure templates are fully responsive, providing an optimal user experience on all devices.
- **Customization:** Develop templates that are easily customizable for different use cases and clients.
- **Implementation:** Convert design mockups and wireframes into functional web pages.
- **Interactivity:** Add dynamic features and interactivity using JavaScript frameworks like Vue.js or React.
- **SEO Optimization:** Implement on-page SEO best practices to improve search engine visibility.

Office Administrative

- Organization and Coordination: Oversee daily office operations to ensure a well-organized and efficient workplace.
- Supplies and Inventory: Maintain office supplies inventory by checking stock to determine inventory level, anticipating needed supplies, and placing orders.
- Executive Assistance: Provide administrative support to executives, including managing schedules, organizing meetings, and handling correspondence.
- Documentation: Prepare and edit documents, reports, and presentations. Manage and organize office files and records.
- Internal Communication: Serve as a point of contact for internal communication within the office, ensuring clear and timely dissemination of information.
- External Liaison: Coordinate with external stakeholders, clients, and vendors to facilitate office activities and meetings.
- Meeting and Event Management:
- Scheduling: Plan and schedule meetings, conferences, and other events. Ensure all logistical arrangements are in place.
- Support: Provide support during meetings and events, including preparing materials, setting up rooms, and taking minutes.
- Budget Management: Assist in managing office budgets, including tracking expenses and processing invoices.
- Expense Reporting: Handle expense reports, ensuring accuracy and compliance with company policies.
- Onboarding: Assist with onboarding new employees, including preparing welcome materials and facilitating orientation sessions.
- Record Keeping: Maintain employee records and handle HR-related documentation and processes.
- Maintenance: Ensure proper functioning of office equipment and coordinate repairs and maintenance as needed.
- IT Coordination: Liaise with IT support to address technical issues and ensure a smooth technological workflow.
- Regulatory Compliance: Ensure the office complies with local laws and regulations, including health and safety standards.
- Security: Maintain office security by following procedures and controlling access via the reception desk.
